

The final chapter of TUNAMI series

Now In Stores

TUNAMI TERZO RR / XX

At last, the third and final chapter of "TUNAMI series" is coming to the scene. Following the success of TUNAMI GPX power cable, and TUNAMI NIGO speaker cable, TUNAMI TERZO is produced as a signal line interconnects cable to enhance the unlimited potential of TUNAMI power cable. Although it has the same concepts of TUNAMI, it is planned to reborn as a signal interconnect cable without changing the basic structure and material. In addition to its well-built architecture, TUNAMI TERZO RR is equipped with the newly-developed RCA connector, GENESIS, and TUNAMI TERZO XX is equipped with the original premium XLR connector, FOCUS 1. TUNAMI TERZO is a proper product to conclude the legend of TUNAMI.

TUNAMI TERZO PCOCC-A

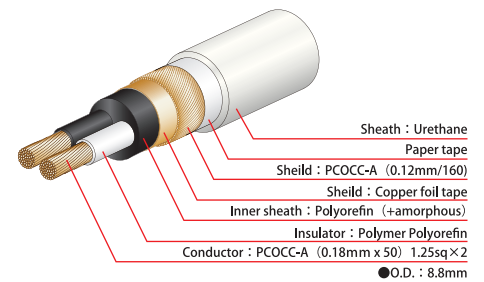

SUPPLIED BY FUJIKOMI

TUNAMI TERZO + GENESIS (Collet Chuck RCA)

TUNAMI TERZO RR 0.7m pair 1.0m pair 1.3m pair

- Cable TUNAMI TERZO (PCOCC-A)
- Plug GENESIS (Platinum +Rhodium plating)

Sheath : Urethane
 Paper tape
 Shield : PCOCC-A (0.12mm/160)
 Shield : Copper foil tape
 Inner sheath : Polyorefin (+amorphous)
 Insulator : Polymer Polyorefin
 Conductor : PCOCC-A (0.18mm x 50) 1.25sq×2
 ●O.D. : 8.8mm

TUNAMI TERZO + FOCUS-1 (One-Touch Push-Pull XLR)

TUNAMI TERZO XX 0.7m pair 1.0m pair 1.3m pair

- Cable TUNAMI TERZO (PCOCC-A)
- Plug FOCUS-1 (Silver +Rhodium Plating)

★FEATURE★

- Under the same concept of TUNAMI, TUNAMI TERZO is produced as an interconnect cable without changing basic structure and materials.
- The basic architecture of TUNAMI TERZO is 2P parallel layout. And its exterior is elegant pearl white color. The PCOCC-A conductor has 1.25sq cross-sectional area which enables high-power signal transmission.
- The multi-layered shielding structure is newly employed for TUNAMI TERZO for better noise protection.
- TUNAMI TERZO RR is equipped with the newly developed RCA plug, GENESIS, which features the innovative collet chuck.
- TUNAMI TERZO XX is equipped with the original premium XLR plug, FOCUS 1, which features one-touch push-pull function.
- The appearance of TUNAMI TERZO made us enable to present total TUNAMI wiring system in combination with other TUNAMI series.
- From the sound of TUNAMI TERZO, you can feel wider range and sound stage, sound energy density, and higher resolution.
- Due to our new collet chuck function of its RCA plug, GENESIS, it enables to maintain better secure contacts.
